committed candidates.

WHY? (1) If we are going to ever stop DeKalb County's "Good Ole Boy, Buddy, Buddy Politics" from continuing to ignore the South DeKalb area socially and stop them from continuing to economically exploit taxpaying voters of South DeKalb; (2) If we ever expect to gain our fair share of the good-paying jobs in DeKalb; (3) If we ever expect to be awarded our fair share of the "big

money" contracts in DeKalb County; (4) If DeKalb is going to regain its status as Georgia's leading business and economic development county; (5) If we in DeKalb County are going to revive and protect the safety and true dollar value of our neighborhoods and homes; (6) If we in DeKalb County are going to vote out all of these greedy, "money-taking" politicians and get rid of that "good ole boy" corrupt political group at

the Courthouse; (7) If we ever expect to stop police from disrespecting and harassing citizens in our neighborhoods and trust us with just as much respect as they trust rich citizens in North DeKalb, then we must go to the polls on election day, TUESDAY, July 21st, and VOTE FOR all of these good candidates. THEY ARE THE BEST.

VOTE**IS PEROT A RACIST?**

Is Perot a racist? Just about all Americans are racist to a certain extent (both Black and White) because racism is embedded in America's culture.

However, neither the Republican Party nor the Democratic Party (which controls the American news media) never convince me that Perot is a racist just because he said "YOU PEOPLE."

In fact, I appreciate Perot using that "ethnic definition" because I, Hosea Williams, am most proud of my ethnic heritage.

Now, if Perot had said "YOU NIGGERS, YOU

COLORED PEOPLE, YOU NEGROES, YOU SPOOKS, OR YOU COONS, then I would have run his butt back to Texas. But the man used the phrase, as far as I know, that has always been acceptable to different ethnic groups. And, if this is all we can find wrong with him, he is like a precious pearl in a pig sty.

Ross Perot is the best thing to happen to America since sliced bread.

Let nobody fool you...when it comes to Black people and working White people, there is not an ounce of difference between the Republican Party and the Democratic

Party. In fact, talking about the difference between the Republicans and the Democrats is like talking about the difference between the "pot and the kettle," because they are definitely two peas in a pod.

Oh, there are some little differences, like abortion; quotas; and affirmative action, but generally the same powerful rich Americans that control the Democratic Party also control the Republican Party. That is why it makes no difference which party gets in...."THE RICH KEEP GETTING RICHER, WHILE THE POOR KEEP GETTING POORER."

Therefore, what we really need is a NEW PARTY.....a party OF THE PEOPLE; a party that will kill tradition (the rich getting richer, while the poor continue getting poorer); a party

that will bring about needed change.

The greatest thing Perot offers us is the chance to develop a new political party—a third party—a party that is responsive to the needs of the masses of Americans (minorities and working Whites). It really doesn't make much difference whether Perot comes or goes; whether he is "left" or the "right" of the center; whether he is for the rich or the poor. The greatness of Perot's political movement is that he does give the masses of Americans a chance to organize a third party.

America has never gone this long without organizing a new political party. The main reason Americans have not organized a new political party recently is that they have lost hope, they are despondent — politically, they feel defeated!

Perot has been able to overcome all of this. He has given hope to the hopeless.

Both Democrats and Republicans are desperately worried because they can not buy him out. Maybe he is "crooked" — so is Bush, Clinton and all the rest of those national political leaders. At least they cannot buy Perot out, because he is already "super-rich."

Another thing about Perot is that he's got to be smart, very smart, because he started off poor and ended up being among the richest men in the world. Dumb folks and fools cannot do

this.

Yes, I firmly believe ole Perot is a modern-day Robin Hood. If he has been robbing, it has been from the corporate power structure of America — IBM, Xerox, General Motors, Ford Motor Company, etc. — and giving to the working Blacks and Whites.

So, I am asking every minority and right-thinking White American to join me in making Perot the next President of the United States.

IF THEY ARE GOING TO IMPRISON BLACK WRONG-DOING POLITICIANS THEN.....WHY NOT THE WHITE ONES?

The White dominated state and federal law enforcement agencies claimed many Black elected officials have illegally handled money. They were immediately (1) indicted; (2) driven from office; (3) tried by a jury in a court of law; (4) convicted; and (5) sent to prison. And, believe it or not, some of these Black elected officials were considered "POWERFUL POLITICIANS." I'm talking about men like A. Reginald Eaves, Chuck Williams, Joel Stokes, John Evans, Leroy Johnson, Tom Nave, the Assistant D.A. in DeKalb, Sheriff Richard Langford, and others.

There is a second group of several other powerful Black politicians like St. Rep. Frank Redding, Senator Hildred Shumake, and others, who have been indicted by the U.S. Justice Department for illegally handling money. Some are just sitting there, day after day, waiting to be tried -- feeling that because they are Black they will more than likely be convicted, and sentenced to long terms in prison. As result of their convictions, they will never be able to hold another elected position....not even dog-catcher!

There is still a third group of those powerful Black politicians being seriously investigated for indictment .. like ex-Airport Commissioner Ira Jackson (appointed); Fulton County Commission Chairman Michael Lomax and his Executive Assistant, Leonard Lucas; Lomax's ex-finance officer of the Public Buildings Department, Bob Wellmaker, who has already gotten scared enough to resign from his appointed, high-paying job and gone into hiding.

**NOW WHAT ABOUT ALL OF THESE POWERFUL WHITE "POLITICAL CROOKS"???
NUMBER ONE, "BIG DADDY" TOM MURPHY.
THE MOST POWERFUL POLITICIAN IN THE
STATE OF GEORGIA FOR THE PAST 20 YEARS.**

Mr. Murphy amassed that massive political power mainly by claiming to be so honest, so sensitive to the needs of all of the voters of Georgia, and so adamantly against "cliques" and "good ole boy" politics.

Yet, we find out "BIG DADDY TOM" has secretly manipulated 2.5 million dollars from the State budget and used it exclusively to protect the political careers and re-election bids of his closest non-political, non-productive political associates.

In the State House of Representatives, these guys are known as "BIG DADDY TOM'S BOYS." They spend the majority of their time protecting the political flanks of Big Daddy Tom rather than producing for their constituents. Therefore, in order to get re-elected Big Daddy Tom has secretly been granting them thousands upon thousands of Georgia taxpayers' dollars supposedly to finance projects in their own districts that would help them get re-elected.

Now, it doesn't take a genius to figure out what is happening to that money. Among the many things that make this entire mess illegal is that "Tom's Boys," who get this money, do not have to make a report to the Georgia Legislature or to anyone else as to how this money is actually spent....meaning, they are doing what? stealing, stealing, stealing!

Factually, Tom and his "boys" are doing the same thing that the powerful Black political leaders are being charged with, investigated for, indicted for, convicted and given prison terms for and have lost their political careers for.

What's happening to Tom and his boys? -- **not a damn thing!** Not only are they politically powerful and rich, but they are **White**. And when they commit political crimes the White dominated GBI, FBI and U.S. Justice Department stop up their ears and turn their eyes in another direction.

One of the most critical things about this political deviation is that Tom Murphy and the "boys" in his political clique called the "GREEN DOOR" have been able to keep this illegal 2.5 Million Dollar hustle a secret from the Governor, a secret from other members of the Georgia House of Representatives, a secret from the State Senate, and most of all, a secret from the taxpaying voters in the State of Georgia.

Big Daddy Tom Murphy and his "Green Door" puppets" make former Governor Joe Frank Harris, former Lt. Governor and now Governor Zell Miller,

and Lt. Governor Pierre Howard look like incompetent "stooges." Big Daddy Tom began this hustle as far back as 1986.

Give these White boys credit....they damn sure kept this secret and kept it well! Can you believe, at one point, gubernatorial candidate Bubba McDonald was the "hatchet man" in this massive misappropriation of taxpayers' dollars? Remember, Bubba was Tom Murphy's House Appropriations Committee Chairperson. Then, good ole boy Terry Coleman, Democrat from Eastman, took over as administrator of Big Daddy Tom's "Green Door" cheating squad. Would you believe, Big Daddy Tom gave that boy \$310,000 of our tax money to spend in little ole Eastman, Georgia (and he has never accounted to anyone for that money.)

Then there was Big Daddy Murphy's House Majority Leader, Larry Walker (Democrat from Perry). He illegally hunkered \$110,000 of Big Daddy Tom's private chest for little ole Perry. Hell, he must have bought the whole town.

Then there was Rep. Carlton Colwell of Blairsville, Big Daddy Tom's Chairman of State Institutions and Property Committee, who got \$150,000 of that illegal budget. But, most of all, the statewide political leader of Georgia himself -- known as "Mr. Honesty, **BIG DADDY TOM MURPHY** -- who took about \$105,000 out of his secret treasury to the big metropolis of Bremen, Georgia.

Now, one would think the White-dominated GBI, FBI and U.S. Justice Department could not be so incompetent as to not know about the illegal mishandling of these funds.

MAYBE THEY NEED INVESTIGATING!

Then there is the "GODFATHER" of rich DeKalb County's "GOOD OLE BOY" POLITICS..... **GODFATHER MANUEL MALOOF.**

It is hard to get the public to believe that Manuel Maloof has not only manipulated DeKalb's political structure, but in reality, he over-dominates and runs it just like it is his own private business. Believe it or not, Manuel Maloof is more powerful in dominating the politics of DeKalb County than most men are in their own homes.

Godfather Manuel proved to be somewhat smarter than Big Daddy Murphy. Maloof legalized his illegal manipulation of the DeKalb County budget. He has something called a "CONTINGENCY FUND." As far as the law is concerned, the Board of Commissioners has little or no control over what happens to millions of dollars placed in the contingency fund; but let no one fool you that is Godfather Manuel's fund. About the only person who really knows how much money and what it is used for in the DeKalb County budget is Godfather Manuel Maloof's "good ole boy" finance confidants/officer, David Joyner. For the political financial protection of the Godfather, Joyner has more money hidden in more places in that DeKalb County budget than Ollie North had hidden in the Contra fund.

Godfather Manuel Maloof uses his "contingency fund" to control the would-be powerful politicians of DeKalb County. He, and he alone, (the Board of Commissioners just pretends to) decides who will get what, when and where. There is not a valid check and balance system other than that which the Godfather's "good ole boy" David manipulates. The Godfather does have a couple of good ole boy "hired hands," who

HOSEA WILLIAMS 11th DISTRICT CONGRESSMAN

Yes, those "redistricting political slicks" in Georgia's Black Caucus know it, Georgia's newly formed 11th Congressional District was definitely made for me. Had I run, I would have beaten all of those other candidates combined, worse than I beat Dr. Professor James Dean for the 54th House District seat. I would have beaten them worse than I beat Councilman Morris Finley (12-year incumbent) for Atlanta's 5th City Council seat. Oh, yes, I'm sure I would have beaten them worse than I beat the Godfather Manuel Maloof's (& Mayor) "good ole boy" Nate Mosby, (incumbent) for DeKalb's 3rd District Commission seat. WELL, I JUST HAPPEN TO LIKE "WHIPPING" GROUPS.

The Commission seat was a good win because Mr. Mosby (a retired federal bureaucrat) had the full backing of one of DeKalb's richest White business-

politicians, Manuel Maloof, and Atlanta's most powerful black politician, Mayor Maynard Jackson.

I've never gotten along too well with Godfather Manuel Maloof's "GOOD OLE BLACK BOYS" in the State Legislature.....the former Honorable State Senator Eugene Walker and the Honorable State Representative Frank Redding.

Believe it or not, the political capabilities of these boys far exceed my expectations. They were the main two "political brains" that gerrymandered the new 11th District. Walker's main motivation was the fact he knew he was going to run for the seat. I'm not sure what Frank Redding's main

"GOD KNOWS, I WANTED TO RUN FOR THE 11th DISTRICT CONGRESSIONAL SEAT, BUT MANUEL MALOOF AND BOB WILSON WOULD RATHER DIE THAN LOSE ME IN DEKALB!!"

motivation was, because he believed he would be in jail for selling votes long before the election. Anyway, the 11th District was drawn for the

late Dr. Martin Luther King Jr.'s Field General.....called by some "the bull in the china shop" and others the "unstoppable force." I like to refer to myself as "Un-BOSSED and Un-BOUGHT," but I am better known as HOSEA WILLIAMS.

A large part of the 11th District is the South DeKalb area. I feel that the worst I could have done in the South DeKalb area is to carry the majority of the vote. After all, less than 2 years ago when I won the DeKalb Commission seat, I carried 83% of the vote.

A good portion of the 11th District is in my old stomping ground Savannah. This is where I got started in civil rights, which lead to the late Dr. Martin Luther King, Jr. announcing in 1963, that Savannah, Georgia was "the most integrated city South of the Mason-Dixon Line."

Next, the 11th District encompasses a nice little piece of Macon and Augusta, Georgia. Because of my civil rights work (marches, pickets and boycotts) in and around those towns, I fear no politician when it comes to winning.

The only thing left is what they used to call "ole Hosea's

haven"....the Blackbelt of Georgia. I've not only marched and picketed, I've been to jail for the rights of my People in almost every one of those counties. The only leader I might fear getting more votes than I might get in the Blackbelt of Georgia is the late Dr. Martin Luther King, Jr.

One may ask, what about the white vote? Well, I can tell

you, ole Hosea has a helluva lot more political support from poor and working white voters than anyone would imagine. Had I run, I had made up my mind to go back to Forsyth County -- not to march this time, but to call upon my many Ku Klux Klan acquaintances to campaign for me among white voters in the Blackbelt of Georgia.

After all, it was not Hosea who took their little monies in Federal Court and tried to take their motorcycles, pick-up trucks and house trailers-- it was Billy McKinney, the "political chaperon" of Cynthia McKinney, a candidate for the 11th District seat, who tried to do that.

The candidates running for the seat should thank Almighty God from the bottom of their hearts for Manuel Maloof and District Attorney Bob Wilson. They are the real reason I did not run and get elected as the first congressman from the 11th United States Congressional District.

JAIL THE BLACK WRONG-DOING POLITICIANS

Continued from Page 4

justify for him how and why the "right folks" are granted the contingency fund monies and are doing something similar to what they claim they would do with it.

There just "ain't no way" that an African-American CEO could get away with manipulating the contingency fund like the White Godfather Manuel Maloof is doing. He had better thank God he is not Black, because if he were, the GBI, the FBI and the United States Department of Justice would have investigated, charged, indicted, tried and imprisoned him probably along with good ole boy Joyner and some others.

Now, the "SUPER BIG-DADDY" OF THEM ALL (Governor for one term) -- Zell Miller said he would run for Governor for only one term when he ran. We all know how good that "big money" can get to a "country boy." So don't be surprised if you see Zell Miller's name in the next election for Governor! Oh, yes, he will have an excuse he will say something like, "The people made me do it." But, really, it would more or less be the love for the Governor's "EMERGENCY FUND." Oh, IT'S LEGAL ALL RIGHT.....that is, the existence of such a fund, but how much is in the fund and what it's used for border greatly on illegality, particularly in light of the State's economic crunch. This crunch is compounded by teachers and state law enforcement officers being underpaid. Comparatively speaking, Georgia's quality of education is super poor; there is a shortage of state

law enforcement officers; and a critical shortage of state prison space. In light of the skyrocketing cost of Georgia higher education, it has become impossible for many young, bright Georgians to go to college. Last, but not least, Georgia forestry and animal industries are severely retarded. MANY OF THESE HUMANITARIAN ILLS COULD BE CURED AND ELIMINATED IF THE FOUR MILLION PLUS DOLLARS IN THE GOVERNOR'S "EMERGENCY FUND" WERE AVAILABLE.

There is no question about it, the Governor is funding some worthwhile projects out of his four million plus Emergency Fund, but if the true story were ever told of how many of the Governor's close political friends in the Georgia State Legislature received thousands of dollars from the Governor's Emergency Fund to finance personal political projects back home, the entire legality of the fund would be greatly questioned.

Again, Governor Miller had better be glad he is White, because IF HE WERE BLACK AND FUNDING MANY OF HIS LEGISLATIVE FRIEND'S PERSONAL PROJECTS, MORE THAN LIKELY, THE GBI, THE FBI OR THE UNITED STATES JUSTICE DEPARTMENT WOULD BE TELLING REP. FRANK REDDING AND SENATOR SHUMAKE TO LEAVE ROOM FOR THE GOVERNOR IN SOME FEDERAL PRISON CELL.

Therefore, for anyone to say that African-American politicians are not being singled out for prosecution, THEY NEED TO SEE A GOOD PSYCHIATRIST!

MAYNARD JACKSON IS FLIRTING WITH DESTRUCTION HE BETTER LEAVE OLE IRA JACKSON ALONE

Ira Jackson

Hasn't the Mayor learned that a "hit dog will holler?" If Ira Jackson is guilty of personally scheming up \$900,000 from alleged airport concession dealing and if what the Mayor keeps pushing is true, Ira is not only going to have to give up that lucrative illegal retirement pension, Ira is just about going to have to go to jail.

With what Ira knows about the many crooked dealings that have gone on in City Hall in the past 20 years—Ira will never go to jail alone—especially with the FBI and GBI so anxious to bust the Black leadership of America's so-called "Black MECCA".

Mind, just mind—remember the *Voice of the Crusader* tried to forewarn you: "If Ira starts singing like a bird—and he will; and if they try to send him to prison, the state and federal law enforcement agencies are gonna have to back a

long train or several Greyhound busses up to Atlanta's City Hall and carry every crook to prison (elected and appointed) who is and has been cheating tax payers out of their hard earned tax dollars and/or using their elected or appointed governmental position for personal gain.

But, just like Ira, we know all of our elected and appointed officials are not crooks, too many, far too many, of our public officials are selling out and using their position for personal gain, rather than properly

serving the public.

One thing we can always admire about Ira, even though he may have been wrong, he didn't sell out for pennies, he went out first class—(\$900,000.00—Damn!) unlike Frank Redding, Chuck Williams, Reginald Eaves, John Evans, Hildred Shumake, Dr. Woodrow Wilson, Sheriff Langford, Congressman John Lewis with his 125 overdrawn checks, Joel Stokes, Leroy Johnson, and Tom Nave, DeKalb County Assistant D.A., among others.

Unquestionably, state and federal law enforcement agencies are unfairly targeting and setting up Blacks in government—but Blacks in government are allowing themselves to be set-up—and for pennies. Black politicians better learn, they just cannot do what these White politicians do and get away with it. One true difference is when these

Maynard Jackson

White politicians steal—they steal "SURENUFF-BIG"

As my Grand-daddy taught me long years ago down on the farm, if you gonna do something wrong—learn how the White man does it first.

"...Ira, even though he may have been wrong, he didn't sell out for pennies, he went out first class - (\$900,000.00 - Damn!)"

MAYOR'S MARCH ON WASHINGTON WAS A COMPLETE FLOP THEY TRIED TO FAULT BUSH FOR THEIR FAILURE

MAYOR MAYNARD JACKSON and nine of his closest colleagues (mayors of nine other major cities) truly flunked and rightfully so, in their march on Capitol Hill demanding billions of federal dollars from President George Bush to "Save America's Cities". Like the gangs in Los Angeles and Atlanta tried to do, those "PATRIOTIC" American Mayors (it really was more than 50 mayors) tried to further scare President Bush and the U. S. Congress into granting their financial extortions by arming themselves with the belief that "All American cities are on the brink of bloody riots!"

Like poor Mike Tyson, those poor mayors failed in every respect possible. Number one, only a few and I mean a few of their constituents would go to Washington and march with them. It reminded me of my first march to Forsyth. Had all mayors that participated brought along just 10% of the people from their city, the march would have consisted of more than 1.5 million marchers. Oh

Boy, ole Bush would have not only have listened, he would have given those mayors whatever they wanted. But, for whatever reason, the top political leaders of America's cities just were not able to deliver a representative number of supporters. In fact, the news media were very nice to the mayors; the media gave them 30,000. Oh yes, 30,000 Americans went to Washington and marched with the mayors—that's really only 0.2% of the people living in the cities that the participating mayors represented.

Number Two, the mayors financial demand from President Bush was reasonable, but President Bush ignored the mayors for two main reasons: (a) the mayors never made it clear to the president how much matching money the cities would put into their "Save America's Cities" program and (b) the mayors never told the President what programs these billions of dollars would be spent on upgrading the living condition of the cities' poor and deprived.

Also, the Mayors did not

guarantee that these billions of dollars would not be ripped off by the political leaders themselves, (like the Tom Murphys and his good-ole-boys multi-million dollar secret slush fund; Manuel Maloof's multi-million dollar good-ole-boys contingency fund; Maynard Jackson's good-ole-boys travel and expense account fund; Ira Jackson and his bosses secret concession fund, I could go on and on—but there is not enough room to tell it all.)

Therefore, whether you believe it or not, it was a blessing in disguise that President Bush did not give those mayors one red cent; there were no built-in guidelines that made it mandatory that that money be used to help the truly needy. Before giving those mayors any money, Bush must take every step to make sure the money is going to be used exactly for what it's given; otherwise, it will be just another waste of federal funds by mayors and their political cronies—just like they squandered billions under the so called "poverty

program."

If Bush ever came to his senses and appropriated the necessary funds to correct the ills that are destroying our cities and our young people all at the same time, he better make sure these state and local politicians "hands are tied" and they don't have "nothing" like a free hand to do anything they want to do with the money, otherwise, the same thing is going to happen that happened to the billions of dollars Washington gave the state and local leaders during the war on poverty.

The only war that took place during the war on

poverty was the war the state and local politicians waged on the money they received from Washington, supposedly to eliminate poverty of the poor. Local and state elected officials took that war on poverty money

that was supposed to be used only to help the poor and committed the most un-American crimes since the Civil War.

The major crime elected officials committed with the war on poverty program was that local and state elected officials spent (squandered) most of the money on their pet projects that had nothing to do with helping the poor. State and local elected officials also misused billions of the war on poverty money by giving their political friends big fat grants to do personal programs that had nothing to do with poverty. In fact, a great deal of the money from those friendly grants WERE ACTUALLY STOLEN.

After billions and billions of war on poverty money was spent, the government found out that the poor people they were supposed to help, ended up in worse shape than they were in before the program got started. The war on poverty folded up because all that was happening was the rich was getting richer and the poor definitely got poorer. WHY? The federal government trusted local and state

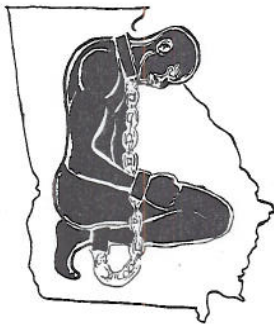

elected officials and did not set up adequate guidelines, therefore, those crooked local and state elected officials stole more money than the Ira Jackson clique ever thought of.

REVEREND HOSEA WILLIAMS' OPEN LETTER FROM PRISON

March, 1992

This letter leaves me well in both mind and body even though, along with some 2,000 criminals, I am serving time in the DeKalb County Jail.

The only crime I committed was driving too close and bumping a car from behind. I stopped, went over to the car I had bumped, told the driver who I was and asked him if he was hurt. The driver opened his car door and I assisted him getting out. Then I asked him what it would take to get his car straightened out. He became very vulgar and abusive. He began coming towards me, talking about how he was going to kick my g-- d-- a--. I tried to quiet him. I told him I was 66 years old and I was not about to fight a young man in the streets at midnight. When his violent demeanor did not change, I rushed to my car, got in, locked the doors and drove off.

I still believe I did the right thing because later I learned, through Bob Wilson's office, that the young man I bumped was a convicted crack addict, who was out of prison on probation for drug abuse at the time my car bumped his. (I know those crack addicts are most dangerous.)

Yes, I was guilty of a "fender bender", the type of crime any other citizen (except Hosea) would have gone to traffic court only, been fined Fifty or Seventy-Five dollars, and it would have been over for once and for all. I never lied about what happened. From the very beginning, I admitted I committed a MISDEMEANOR (causing a "fender-bender") by bumping this man from behind. Yet, DeKalb County District Attorney BOB WILSON MANIPULATED A GRAND JURY INTO INDICTING ME FOR TWO FELONIES AND THREE MISDEMEANORS. Hosea made history again.

Although Bob Wilson knew I had only committed a fender-bender, he misled DeKalb's "Political Power Structure" into believing he could convict me for two felonies and SEND ME TO PRISON FOR 7 YEARS (two years for each felony and one year for reach misdemeanor). In the end, however, Bob Wilson was glad to settle for me spending only thirty days in prison. WHY ?? Just think for a moment, District Attorney Wilson set out to and spent TENS OF THOUSANDS OF DeKalb TAXPAYERS' HARD-EARNED DOLLAR TO

SEND ME TO PRISON FOR SEVEN YEARS, but ended up sending me for ONLY thirty days! Wilson went all the way from demanding that I spend 2,556 days in prison to my accepting 30 days (0.01% of Wilson's original demand).

Trying to cover up the dirty tactics he used to illegally send me to prison for seven years, Wilson later tried to fool the citizens of DeKalb County into believing that he gave up trying to convict me on two felonies and three misdemeanors and offered me thirty days instead because the state law changed. Bob Wilson knows that is just a blatant lie! No state law, nor any other law, changed between the time Wilson indicted me for two vicious felonies and three misdemeanors and the time Bob Wilson accepted my plea.

One of the crazy things about Wilson's indictment of me for two felonies in the first place is that the felony charges were based on a law passed by the Georgia Legislature in January, 1990—a law so unconstitutional that the Legislature turned right around and repealed that very same law in January of 1991 (7 months before I was charged under that law). No decent district attorney would have ever indicted a citizen under a law that the state legislature had already rendered unlawful.

Even though Wilson reduced the time he was trying to give me in prison from 7 years to 30 days, I still wanted to go to trial. You might ask, after I had already made him look so ridiculous, why would I still want to go to trial? Am I as repressive as Wilson is? After all, Wilson was "under the gun" of the DeKalb County political power structure.

I still believe, had I gone to trial ALL of the truth would have come out about: (1) How Bob Wilson was trying to gain political power by exploiting my case and illegally sending me to prison for 7 years; (2) How THE POLITICAL POWER STRUCTURE OF DeKalb COUNTY WAS TRYING TO GET ME OFF THE DeKalb COMMISSION IN ORDER TO SAVE ITS TARNISHED POLITICAL IMAGE; (3) HOW WILSON WAS TRYING TO USE THIS CASE TO GET ELECTED TO THE FOURTH DISTRICT U.S. CONGRESSIONAL SEAT; (4) How convicting me was an effort to stop me from exposing DeKalb's unethical 1992 county budget; (5) How DeKalb's District Attorney Bob Wilson had taken a "fender-bender" and illegally indicted me for two felonies and three misdemeanors which any other citizen would have been fined only \$50 or \$75. (NOTE: No other citizen in the history of Georgia has ever been indicted for two felonies for a fender-bender); (6) How the young man (really, a 30 year-old "boy"), I bumped was a CONVICTED CRACK ADDICT, out on parole for drugs when I bumped him, and has not had a regular job for over two years; and (7) Last, but not least, ALTHOUGH I DO DRINK SOCIALLY, I AM NOT AN ALCOHOLIC (no alcohol at all was involved in this accident).

Wilson knows well that I am no alcoholic. He was asked if he truly believes Hosea Williams is an alcoholic, he replied, "I

know he is a confirmed serious alcoholic". Wilson was then questioned if he believed Hosea is truly an alcoholic, why would he send him to prison for 30 days and then to the alcohol treatment center? It seemed if Wilson was sincere he would have sent Hosea to the alcoholic clinic first (where I could get some professional help with my alcoholic illness,) and then send me to prison. Because if Hosea was an alcoholic like Wilson says, he might die from alcoholism while serving 30 days in prison.

By now you are probably asking yourself, if all of this is true, how come I didn't demand a trial rather than accept a plea bargain for the 30 days in prison? Well, the jury would certainly have found me guilty of one misdemeanor since I admitted from the beginning I did bump the man from behind. I was told that the Judge—A PRODUCT OF DeKalb's POLITICAL POWER STRUCTURE—HAD ALLOWED HIMSELF TO BE MISLED IN THIS CASE BY DISTRICT ATTORNEY BOB WILSON and WOULD GIVE ME ONE YEAR TO SERVE IN PRISON FOR EACH MISDEMEANOR CONVICTION. So...I beat them to the punch by accepting the 30 days.

Evidence of how political and unprofessional Bob Wilson is, the day I entered the 30-day plea, Wilson went right to the press and started yelling, "I beat Hosea, I beat him. I've beaten ole Hosea twice now—I beat him eleven years ago and I beat him again today!" Now please tell me, WHAT DECENT DISTRICT ATTORNEY WOULD ACT THAT UNPROFESSIONALLY?

What Wilson didn't tell the press is that THE FELONY INDICTMENT HE CONVINCED ME ON 11 YEARS AGO WAS LATER OVERTURNED BY GEORGIA'S LOWEST APPELLATE COURT. A panel of three state court judges UNANIMOUSLY voted to overturn Wilson's felony conviction. In fact, all three judges said they could not believe a district attorney would even try to illegally convict a citizen like Bob Wilson had done in this case. One of the most damnable things about that whole conviction is that Wilson fought and persuaded the Judge not to give me an appeal bond. Therefore, I had to spend nine months in the DeKalb County Jail waiting until the appellate court ruled in my favor. (Please note the remaining portion of Hosea's Letter From Jail will be printed in the next issue of the VOICE OF THE CRUSADER).

I feel very strongly that this is a case where the TRUE VICTIM IS BEING PUNISHED! As a result, the citizens of DeKalb County suffer. DO YOU REALIZE THE DISTRICT ATTORNEY FORCED ME TO GO TO PRISON THE VERY MINUTE I AGREED TO A PLEA!

My lawyers called me the week before I entered the plea and told me Bob Wilson would accept a misdemeanor plea and would throw out all felonies (which were going to cost me so much money going to trial) if I would serve 30 days in prison; go to an alcohol rehabilitation

MINORITIES MADE DeKALB A MORE DESIRABLE COUNTY EVEN FOR RICH WHITES

Even though DeKalb's Black population almost doubled during the 1980's, information from the 1990 Census shows that DeKalb County residents are more educated, are earning more money, and are less likely to be native Georgians. With this great jump in DeKalb's minority population, census figures show a rise in the median household income to \$35,721.

The information released was compiled by the census investigation which asked households a

series of questions about income, work, commuting, housing and cultural roots.

Today, the most culturally diverse community in Georgia is found along the six-mile stretch of Buford Highway, between North Druid Hills Rd. and the Gwinnett County line.

Almost 44,000 of DeKalb's 545,837 residents said they speak a language other than English.

Native Georgians living in DeKalb are just barely the majority at 51%, which residents

from out-of-state make up 42.3% of DeKalb's population.

One in every five DeKalb households headed by females lives below the poverty level as does 1 in every 10 people 65 years of age or older.

Among the most encouraging indicators in the census information were those showing an increase in the level of education. In 1990, almost 84% of DeKalb residents 25 years of age or older held a high school diploma or a higher degree, compared to nearly 77% in 1980.

ARE YOU GUILTY OF SURRENDERING TO STRESS?

Recent studies have shown that the people who suffer from stress related disorders (such as ulcers, high blood pressure, depression, insomnia and irritability) are in jobs where they have little or no control over their job environment.

To reduce your daily stress intake, look at your daily routine. For example, are you required to deal with clients who are under stress because of their injuries; directives from senior partners that limit your decision-making abilities; court decisions that at times bear little resemblance to reality and excessive file loads? If so, the only control you have over your environment is within yourself.

In a job that has a large built-in stress factor, you need to spend at least 15-20 minutes a day building up your capacity to deal with stress in a positive manner. This would

include exercise, good diet, caring for yourself, deep breathing and perhaps a form of meditation. If you can take care of yourself on a daily basis, you will have the energy and mental agility to deal with excess stress when a crisis hits.

Most of us deal with stress by withdrawal (flight) or by taking out our anger on family and friends (fight). We generally take things out on people we are pretty sure won't leave or fire us. However, climbing into bed for a week usually isn't a viable alternative nor is abusing our family and friends. But there are more effective and appropriate ways to deal with daily tensions.

BE AWARE OF STRESS. Often we deny that we are under stress. Be aware of the tension in your neck and shoulders. Notice when any request, whether from the job or your family, seems too much. Recognizing stressful

situations is the first step in changing unproductive patterns.

SLOW DOWN. As a number of files on your desk increases, the more the phone's going to ring and your pace will tend to speed up. Rushing around under pressure, however, often makes you feel even more tense, reducing your productivity. When the pressure is on, notice how you are breathing, speaking and eating. Take five deep breaths between calls, pace yourself and take time to eat lunch.

Make sure you take breaks. Walk outside and let your body relax for a few minutes.

LEARN TO PLAN. Stress increases when you feel disorganized and unsure of what comes next. Before leaving work each night, plan (generally) your next day. Mark those files you really don't want to deal with, and in the morning you should attack them first.

Learn to anticipate stressful situations and to develop alternative plans and options. Planning and problem-solving skills will assist you in gaining a sense of clarity and direction that will reduce the feelings of helplessness in a stressful situation.

There will never be enough time for you to do everything your job requires and still have a personal life. Goal-planning and time management can help you to identify top priorities and eliminate time-wasters.

COMMUNICATE. Let people know your needs, ask for assistance and express your emotions. Pent-up anger or fear will come out somehow; increased blood pressure, loss of control in stressful situations or muscle tension. People cannot help you unless they know what you need.

Open Letter From Prison Continued from page 9

center; surrender my driver's license and remain alcohol-free for a two year probationary period.

WHAT I BELIEVE THE LAWYER WAS REALLY TRYING TO CONVEY TO ME WAS THAT DISTRICT ATTORNEY BOB WILSON REALIZES NOW THAT HE WAS NOT GOING TO BE ABLE TO DESTROY ME POLITICALLY LIKE HE OBVIOUSLY HAD PROMISED DEKALB'S POLITICAL POWER STRUCTURE HE WOULD DO. WILSON REALIZED THAT TRYING TO SEND ME TO PRISON FOR 7 YEARS FOR A "FENDER-BENDER" JUST WOULD NOT WORK. WILSON NOW KNEW THAT CITIZENS OF DEKALB COUNTY JUST WON'T STAND FOR THAT KIND OF INJUSTICE; THEY JUST RESPECT ME TOO MUCH BECAUSE I AM "UN-BOSSSED AND UN-BOUGHT." SO WILSON WANTED TO "DO RIGHT," HE WANTED TO BACK DOWN; HE WAS WILLING TO "EAT CROW." NOW WILSON ONLY WANTED TO "SAVE FACE." BUT WILSON ALSO REALIZED THAT THE ONLY WAY HE COULD SAVE FACE WAS IF I COOPERATED WITH HIM! WILSON WAS MORE THAN WILLING TO FORGET THE 7 YEARS IN PRISON HE WAS TRYING TO GIVE ME; HE WOULD BE SO HAPPY IF I WOULD ACCEPT JUST 30 DAYS. YOU SEE, WILSON HAS LOST FAITH IN HIS ABILITY TO DESTROY ME. NOW HE IS AFRAID THAT HIS ATTEMPT TO DESTROY ME MAY END UP DESTROYING HIM. SO, WILSON WANTS ME TO HELP HIM SAVE FACE BY AGREEING TO ACCEPT 30 DAYS IN PRISON.

LETTERS TO HOSEA

Dear Mr. Williams,

Please accept my heartfelt thanks for the good job you are doing in trying to make the American dream come true for every American. I just love what you said on your radio show last week: "Never judge an individual by the color of their skin, but judge every individual by the content of their character."

This really motivates me to want to get involved with your program. I am interested in being part of a "Cultural Exchange" project. Briefly, it is my belief that by personally experiencing each other based on mutual interest, a better understanding develops. What I have in mind is perhaps finding an American family of another culture and having them spend time with me in my home and allowing me to visit with them. The main purpose would be to acquaint one another with another American subculture. In time, this exchange would develop into others participating as friends!

If you have any interest or belief there is value in my idea, please contact me.

Thank you,
Shelby Bretbach
Atlanta, Georgia

Dear Rev. Williams:

Rev. Williams, I need help really bad and I don't know anyone to come to but you. I wrote you a couple of years back regarding a grant. You directed me to Senator Eugene Walker and Congressman Jones' office. After contacting Senator Walker several times I finally gave up because he never responded to my letter or phone calls.

Congressman Jones' office sent me through a lot of changes and that was unsuccessful too. So, again this year, I began my research and studies on the juveniles, because I have great concern about young Black youth of today's society.

This lack of concern from the community has helped our youth to become criminals before becoming adults. I have designed a program that will rehabilitate the youth as well as the low-income parents before committing the act of a crime. I have written the Board of Commissioners of DeKalb, but Maloof's office keeps telling me that I have been put on the mailing list for an application for the fiscal year of 1993. I am seeking your help for me with getting the grant when it goes before the board.

Thanking you in advance for your consideration and time in this matter.

Yours in Christ,
H. L. Freeman
Stone Mountain, Georgia

Dear Rev. Hosea:

Thanks for the favor. I am still sick. I am not able to vote like I used to. I am sicker than I used to be. I'm not able to work.

My phone is cut off, but my neighbor allows me to use her phone in the evening. I was born 8/17/40. I can hardly see out of my eyes. I can hardly write anything.

I have medicare and I have hospital insurance. My food stamps used to be \$82, but they have been cut to \$75. I don't have enough food to eat. The doctor put me on a diet. I worked up until 1970 when I got sick. I hope you can understand my writing. I also thank you so much for writing to me. I'll always keep your letter.

Annie H. Williams
Atlanta, Georgia

Dear Mr. Williams,

I am writing you in regard to what is happening in Abingdon, Washington County, Virginia. Poor whites and poor black people are losing their property for taxes. On top of taxes they had penalty to equal the amount of taxes.

I am a low-income widow, trying to hold on to property that's been in our family for over 100 years (1883). I allowed taxes to become delinquent because the other heirs were not helping to pay, and now when I pay tax amount they take it back to the beginning and it is eaten up by the penalty.

Please advise me as to what can be done. I have already brought it to Governor Wilder's office.

Yours in Christ,
Lillian R. Ryan
Akron, Ohio

Dear Mr. Williams,

I feel Mr. Conley of the Merit System has subverted the county code and deliberately failed to fulfill the mandates of his office as described by those codes. I have seen him subvert the codes twice: Once in the situation I will briefly describe in this letter; and once in a personnel review hearing when he severely manipulated the panel, undermining their duties as described by the codes. I would like your assistance in determining the proper procedure I should take to get the problem corrected.

Thank you,
Tom Pittman

Dear Mr. Williams,

My name is Leethel Randolph and as you may have noticed I am incarcerated, although this letter is not a plea for your assistance in my release as I will be paroled in July.

I'm writing instead as I wish to place myself at your disposal on my release. This decision, Mr. Williams, came about after I familiarized myself with your progressive efforts during the struggle for equality. I'm well familiar with your present day struggle for more "jobs". I'm aware of your being the commissioner in DeKalb County as I've worked with several groups in your district on the war against drugs.

I am a resident of Lithonia and I worked out of churches such as Abundant Life Baptist and Hopewell Baptist in Norcross. I've worked with rest homes dealing with elderly and my wife has assisted me in working with troubled children.

Mr. Williams, I've said these things to say, I wish to become an active product of yours used in the struggle for jobs for outcoming inmates. Mr. Williams, I'm knowledgeable of your undying strengths and your great leadership abilities, as well as your antagonistic skills. These are attributes of born leaders, which you are.

I am familiar with a program in New York for people being released from prisons, as I once was a victim myself. I am also familiar with the program at Candler Road.

I'm no scholar, Mr. Williams, though I admit that I should be. I salute you for your becoming successful in your will to survive the pains of living on a plantation in southwest Georgia without a father, going on to become a chemist, then on to your present status. I wish to know if you have ever run for the mayor's position or even governor's position? You may have a few obstacles to eliminate, but we shall overcome. There are many out there that will back you. You are already in the history books though you are not finished, as you're graced with life today. I will close now in hopes to hear from you soon.

Respectfully submitted

When it rains, it pours.
It appears that the Rev. Hosea Williams is launching a one-man media blitz on the city. His inaugural radio talk show hit the airwaves Saturday morning on WGUN-AM (1010), and word now comes that he'll begin a TV talk show for WTLK/Channel 14. (They could use the help after WGST-AM talker Neal Boortz quit a while back and Brian Wilson was canned following an on-air tirade against the station two weeks ago.)

"Hosea Live!" (exclamation point, theirs) will air at 8 p.m. Fridays beginning this week. The show will feature a studio audience and, like the DeKalb County commissioner's radio show, will deal with topical issues. He'll have the student government presidents of Morehouse, Spelman and Clark colleges on as his first guests to discuss the Los Angeles riots and their aftermath.

calls with new TV show**

Out of jail, fresh from 30 days in alcohol rehab and still as "unbossed and unthought" as ever — live, once again, it's the Hosea Williams show.

"Hosea Live" began broadcasting last Friday with a political format and a live studio audience that so far has proved popular with the viewers watching WTLK-TV/Channel 14, a UHF station based in Marietta.

The first show featured students from Atlanta University and centered on their standoff with police after the Rodney King verdict sparked violence in Los Angeles.

"We had a big response," said Barbara Burley, the station's senior producer. "We were all a little surprised. The phones were lit up for the full hour."

Mr. Williams — a DeKalb County commissioner, former Atlanta City councilman and former legislator — hosts the live, hourlong show that asks viewers to call in and express their opinions. The station broadcasts throughout the state and into Tennessee and Alabama.

The 66-year-old civil rights activist says he plans to use the show, which airs Fridays at 8 p.m., to expose what he describes as the black elite in politics, business and education who, he says, have forgotten their roots and the reasons that got them into office.

"We used to say if you truly want equality, vote whitey out and blacky in," Mr. Williams said. "Well, we voted blacky in but things haven't gotten any better for black people. They get in and turn white on us. I'm going to bring down front all these black leaders and let them defend themselves. I'm into cleaning the slate."

If the success of his previous call-in show is any indication, Mr. Williams undoubtedly will attract and keep a loyal following. His show, broadcast on local-access television Channel 12 to 250,000 DeKalb and Fulton viewers on Wednesdays, was forced off the air last fall after an eight-year run because the station's bylaws, previously unenforced, limit programs to three-year runs.

"He's responsible for getting his people here and coming up with ideas," Ms. Burley said. "He's got a whole brain full of them. He's definitely one where you can turn on the TV and not know what to expect."
